

Heather Robertson

With regret, King Township Historical Society reports the passing of our President, Heather Robertson, on Wednesday March 19 2014, her 72nd birthday.

King Township Historical Society was fortunate to have had Heather as President and Chairman for the past two years – a nationally recognized and acclaimed author, journalist and historian. She chaired our meetings ably and directed the Society with vision.

Heather believed that King Township's history is so exciting, relevant and valuable that it should be accessible to all our new residents. She therefore organized an art competition for local high school students on local historical subjects and spearheaded the idea of Olympic poster boards to put King's recent and popular history in front of young people and their families.

Heather led the Society to re-examine and affirm its mission, to recognize its past successes and to reach for challenging future dreams. She sought ways to provide the Society with a firm financial foundation. Heather emphasized the need to partner with other community groups within and beyond the Township.

We will miss her deeply.
